Width	31.89"	81.28 cm
Depth	9.84"	25.40 cm
Height	39.76"	101.6 cm

The terraced irrigation of hillsides has always fascinated me. It is a moment in which human intervention meets natural topography in a harmonious, poetic way. Inspired by these moments, as well as by the travertine terraces of places like Yellowstone, US, and Pamukkale, Turkey, the mirror drips down the wall, projecting a topography onto its planar surface. As with any topography, the nature of the mirror changes as we navigate around it, gaze into it from different perspectives.

Custom Patinas Possible
