DESIRE LINE NO. 2, LA ROMA

SPECS

Width	56.7"	144 cm
Height	86.7"	220 cm
Weight	11 lb	5 kg

Desire Line is an ongoing body of work that offers a critique of the process of gentrification, displacement and desire in Mexico City. When completed, these weavings, designed from rubbings of condemned buildings in the eight colonias of Centro, will act as an abstract map of the city that is disappearing, not only in an effort to preserve collective memory but as an homage to the architectural spaces that house our sense of cultural and personal identity.

Handwoven wool textile.
