

STUDIO FENICE

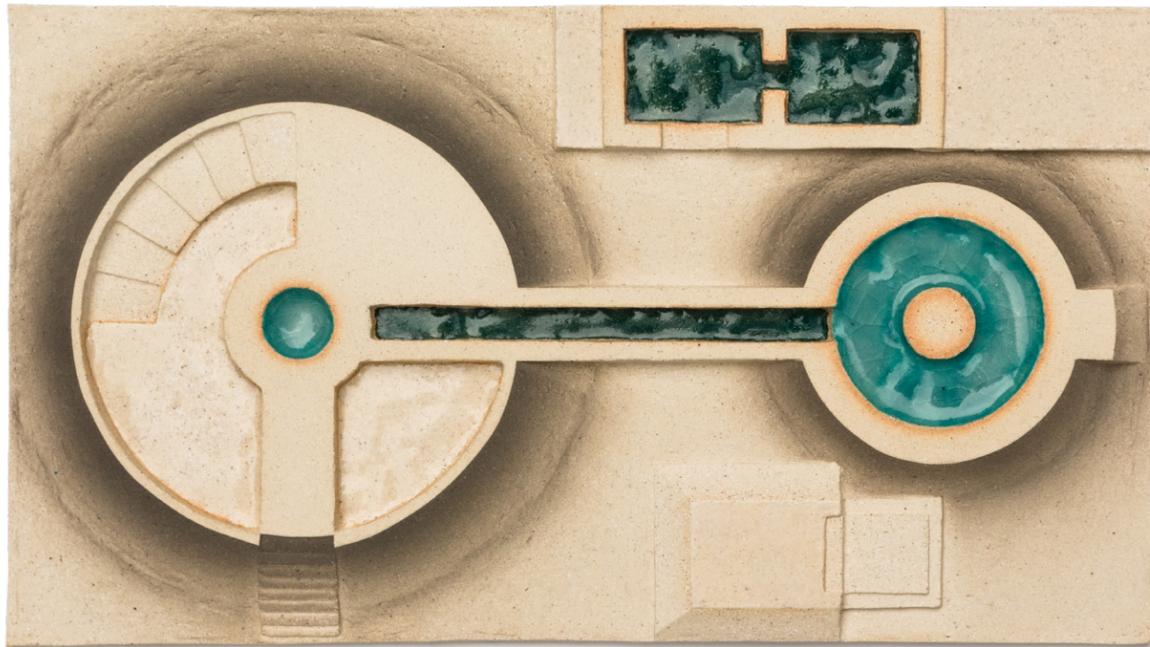

Width	17.7"	45 cm
Height	9.8"	25 cm
Weight	4.4 lb	2 kg

PLATAFORMAS CIRCULARES

SPECS

This work draws inspiration from ancient architectures directly linked to landscape forms: mountains, rivers, and ravines. Additionally, there is a reference to contemporary science fiction culture, where the aesthetics of the eternal often appear in spaces whose temporality evokes both the ancient and the future simultaneously.

Stoneware.

*Artwork may be displayed either wall-mounted or laying on a horizontal surface. Frame or base not included, but may be installed standalone. Stoneware is resistant to weather elements like water and sunlight, but might change appearance if it absorbs too much moisture. Avoid exposure to thermal shock and freezing temperatures.
